Uzin Utz UK, Rugby

Professional and durable floor for installation experts

Issue

With over a 100-year experience, Uzin Utz UK provides the UK's flooring professionals with ecological, innovative and high-quality products and solutions. Uzin Utz UK's head office in Rugby needed a new floor for their reception, offices, corridors, and kitchen breakout areas. With design good looks, comfort underfoot and a natural flow through the building being a requirement, plus ease of cleaning and noise reduction, Uzin Utz UK turned to Altro for guidance on suitable products.

Approach

Each adjoining space required a distinct design to create a seamless and natural transition throughout the building. Given the high foot traffic from staff and visitors, the flooring also needed to be durable and easy to maintain, while effectively reducing noise.

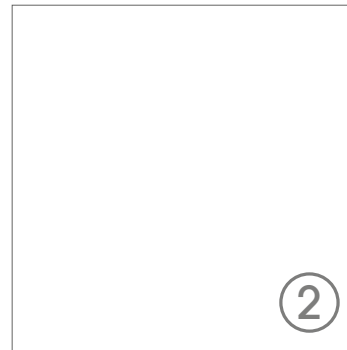

Solution

Altro Ensemble, an award-winning luxury vinyl tile, modular flooring system, was specified for each of the public-facing areas. With the ability to create unique designs, Altro Ensemble planks in colour Greige Rustic Oak were laid in the corridors, kitchens, breakout areas, offices and reception.

"These spaces serve multiple functions – from meetings and team catch-ups to customer presentations – and Altro Ensemble meets every need with ease."

Marc Lawrence,
Head of Technical and Product
Management, Uzin Utz UK

Looks great with:

1. Altro Wood™ | Honey Oak
2. Altro Whiterock White™
3. Altro Classic™ 25 | Anvil

Altro Ensemble is a modular flooring system that gives you complete design freedom to create stunning floors for interior spaces. From warm wood herringbone to geometric patterns, natural stone and concrete effects, the possibilities are as endless as your imagination.

Altro Ensemble award-winning luxury vinyl tiles are available in six sizes that can be flexibly mixed and matched. With impact sound insulation to 15dB and comfort underfoot Altro Ensemble is great in public-facing areas where first impressions count.
