Sheffield Children's Hospital

Clean, calm and comfortable floor for busy atrium

"The performance is great. We prefer the look to the previous products that were installed and Altro are always there when we need support."

Jamie Douglas,
Senior Capital Projects Manager,
Sheffield Children's NHS Foundation Trust

1. Altro Suprema™

Sheffield Children's Hospital

Clean, calm and comfortable floor for busy atrium

Issue

The main reception and entrance area for Sheffield Children's Hospital needed a new floor as the old linoleum floor had not worn well, the colour had faded, and it had been damaged by furniture, foot and wheeled traffic. The area is also home to retail outlets selling food and drink, and with visitors and staff treading wet weather conditions into the area, it brings an increased risk of slips and trips to patients, visitor's carers and staff.

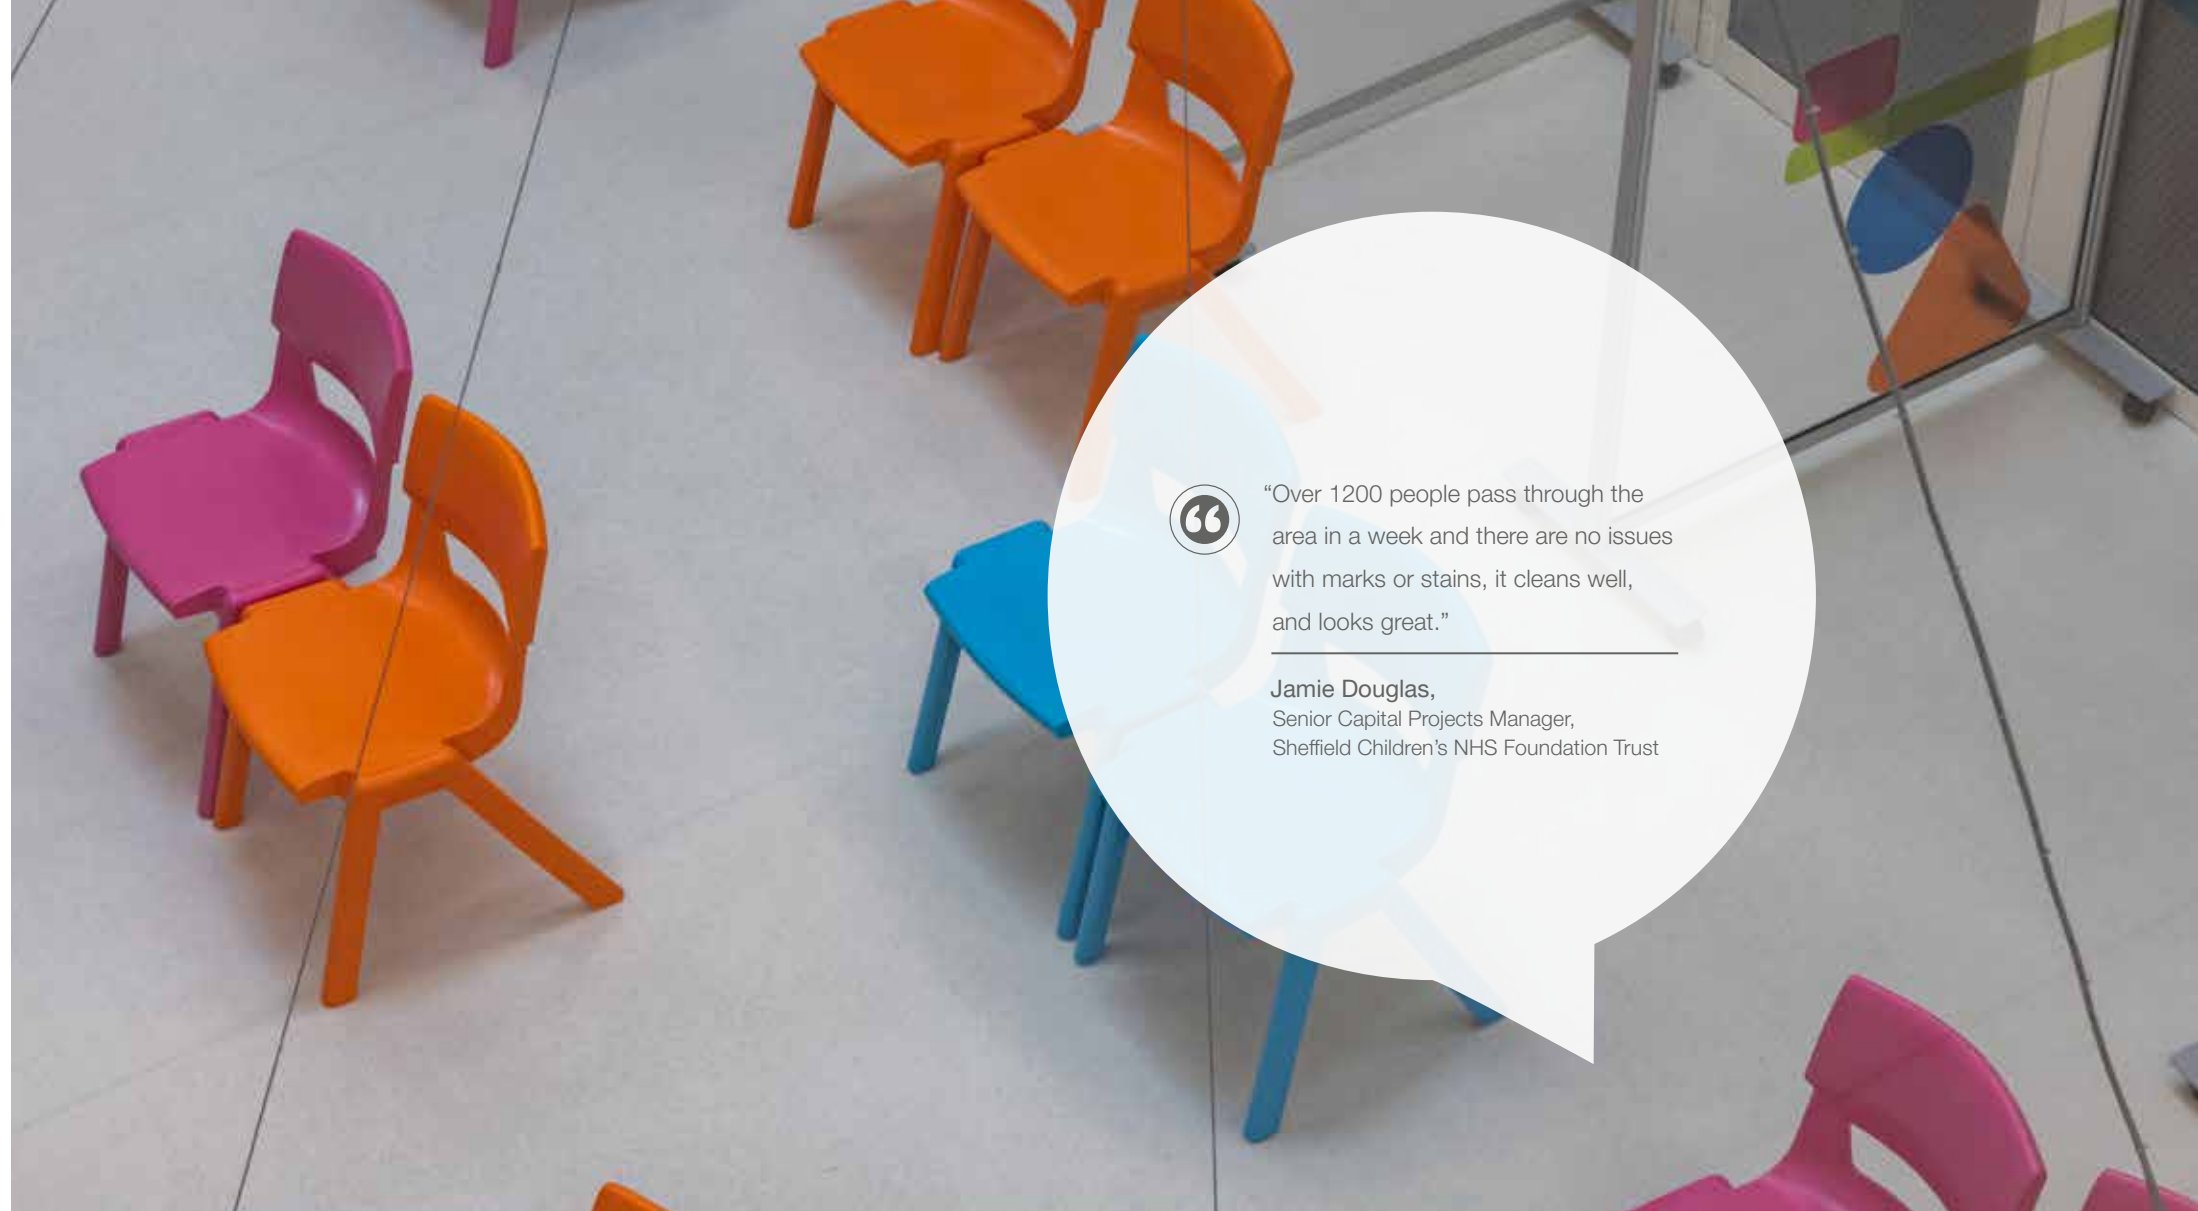

Approach

James Lines, Project Manager, Sheffield Children's NHS Foundation Trust championed Altro products, specifically recommending Altro Suprema for its safety and durability. James said, "Approximately 1200 people per week pass through this area accessing the outpatients' department, treatment areas, wards, care and surgery areas, laboratories, and restaurant / dining areas so a robust solution was required."

Solution

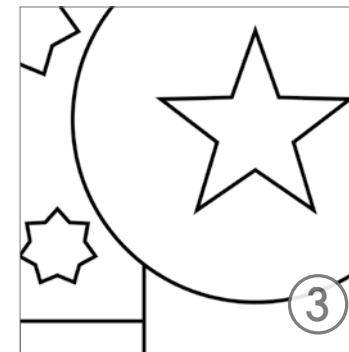

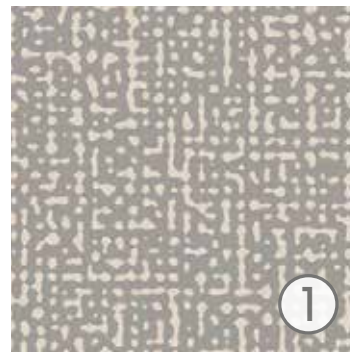

Altro Suprema, in colour Sugar, was installed over two weekends, with one weekend being allowed for preparation. James Lines, Project Manager at Sheffield Children's NHS Foundation Trust said, "The installation went well and was very quick, limiting disruption to the area."

Jamie Douglas, Senior Capital Projects Manager at Sheffield Children's NHS Foundation Trust commented, "Another benefit to having an Altro floor is that a specialist cleaning product is not required. They clean quickly, a great benefit as the area is so busy, we cannot close it for long periods of time."

"Over 1200 people pass through the area in a week and there are no issues with marks or stains, it cleans well, and looks great."

Jamie Douglas,
Senior Capital Projects Manager,
Sheffield Children's NHS Foundation Trust

Looks great with:

1. Altro Orchestra™
2. Altro Wood™ adhesive-free
3. Altro Whiterock™ Imagination Wall

Available in a range of stylish colours reflecting contemporary trends, this non-sparkle, low-gloss safety flooring has superior stain, abrasion, and scratch resistance, making it great for busy classrooms, hospital wards, corridors, and critical hygiene areas. Altro Suprema incorporates Altro Easyclean™ technology, so is low maintenance - saving you time and cleaning costs. Suitable for very heavy commercial use, foot, and wheeled traffic.
