

Designed for possibilities.
Made for people.

NEW PRODUCT

Altro Transflor Artis™

Typical applications:

Executive sedans, coach, shuttle, trolley, recreational, specialty vehicles, mobility vehicles, mobile medical units, mobile food, people movers.

Public transport design is becoming increasingly sophisticated. Passenger demands for interiors to offer the comfort and appeal of other public spaces has triggered a move away from utilitarian design to a more welcoming aesthetic. Design is now frequently used to increase passenger appeal and expand accessibility, but interior components still have to offer the hard-wearing performance they always have. Altro Transflor Artis comprises a breadth of natural designs to perfectly harmonize with other interior materials for stunning results. And better still, with its resilient compact construction, protective ShieldGrip technology and sustained slip resistance, it delivers the performance necessary for the toughest service schedules.

lightweight safety flooring for the transit industry
