1.1 Safety sheet flooring

Altro Stronghold 30, Altro Classic 25, Altro Atlas 40, Altro Aquarius, Altro Marine 20

Areas like busy commercial kitchens and wet environments have additional contaminants, which are continuously present and spillages cannot be avoided. The likelihood of a slip is significantly increased, raising the slip risk level to “extremely high”. These locations demand safety flooring that retains a slip risk level of one in a million with contaminants such as grease, oil, shampoo and shower gels.

1.2 Slip-resistant sheet flooring

Altro Reliance 25, Altro Walkway 20, Altro Illustra, Altro Walkway 20SD, (For Altro Promenade see 1.10)

In many commercial areas your slip risk is not as high as the specialist area types described above. But, your patrons, patients, students and employees still deserve to be secure on their feet — and you deserve peace of mind. We offer slip-resistant flooring that meets and exceeds safety standards. It reduces the risk of slips and falls and looks good doing so. It has become a practical and durable commercial flooring solution in a variety of application areas.

*Altro Illustra is not intended for wet environments.
