The Deep Aquarium

Altro floors for design and quality at busy aquarium

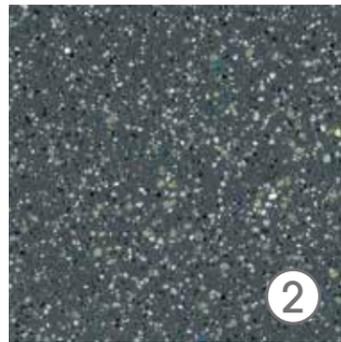

“We chose the Altro flooring range based on their safe, hard wearing and attractive appearance for our customers. The choice in range appealed, giving us solutions to the different areas and environments within the attraction, complementing the styling and quality needed to work within the aquarium.”

Jason Bache,
Facilities Manager, The Deep

The Deep Aquarium

Altro floors for design and quality at busy aquarium

Issue

The Deep Aquarium is an education and conservation charity and one of the UK's largest aquariums, with over 3500 fish, stunning marine life and plenty of activities for all the family. Located in Hull, The Deep Aquarium takes visitors on a journey of the world's oceans travelling through a unique blend of beautiful marine life from warm tropical waters to the cold Antarctic seas.

With an average of 450,000 visitors a year, the high footfall had worn out the floors and needed to be replaced.

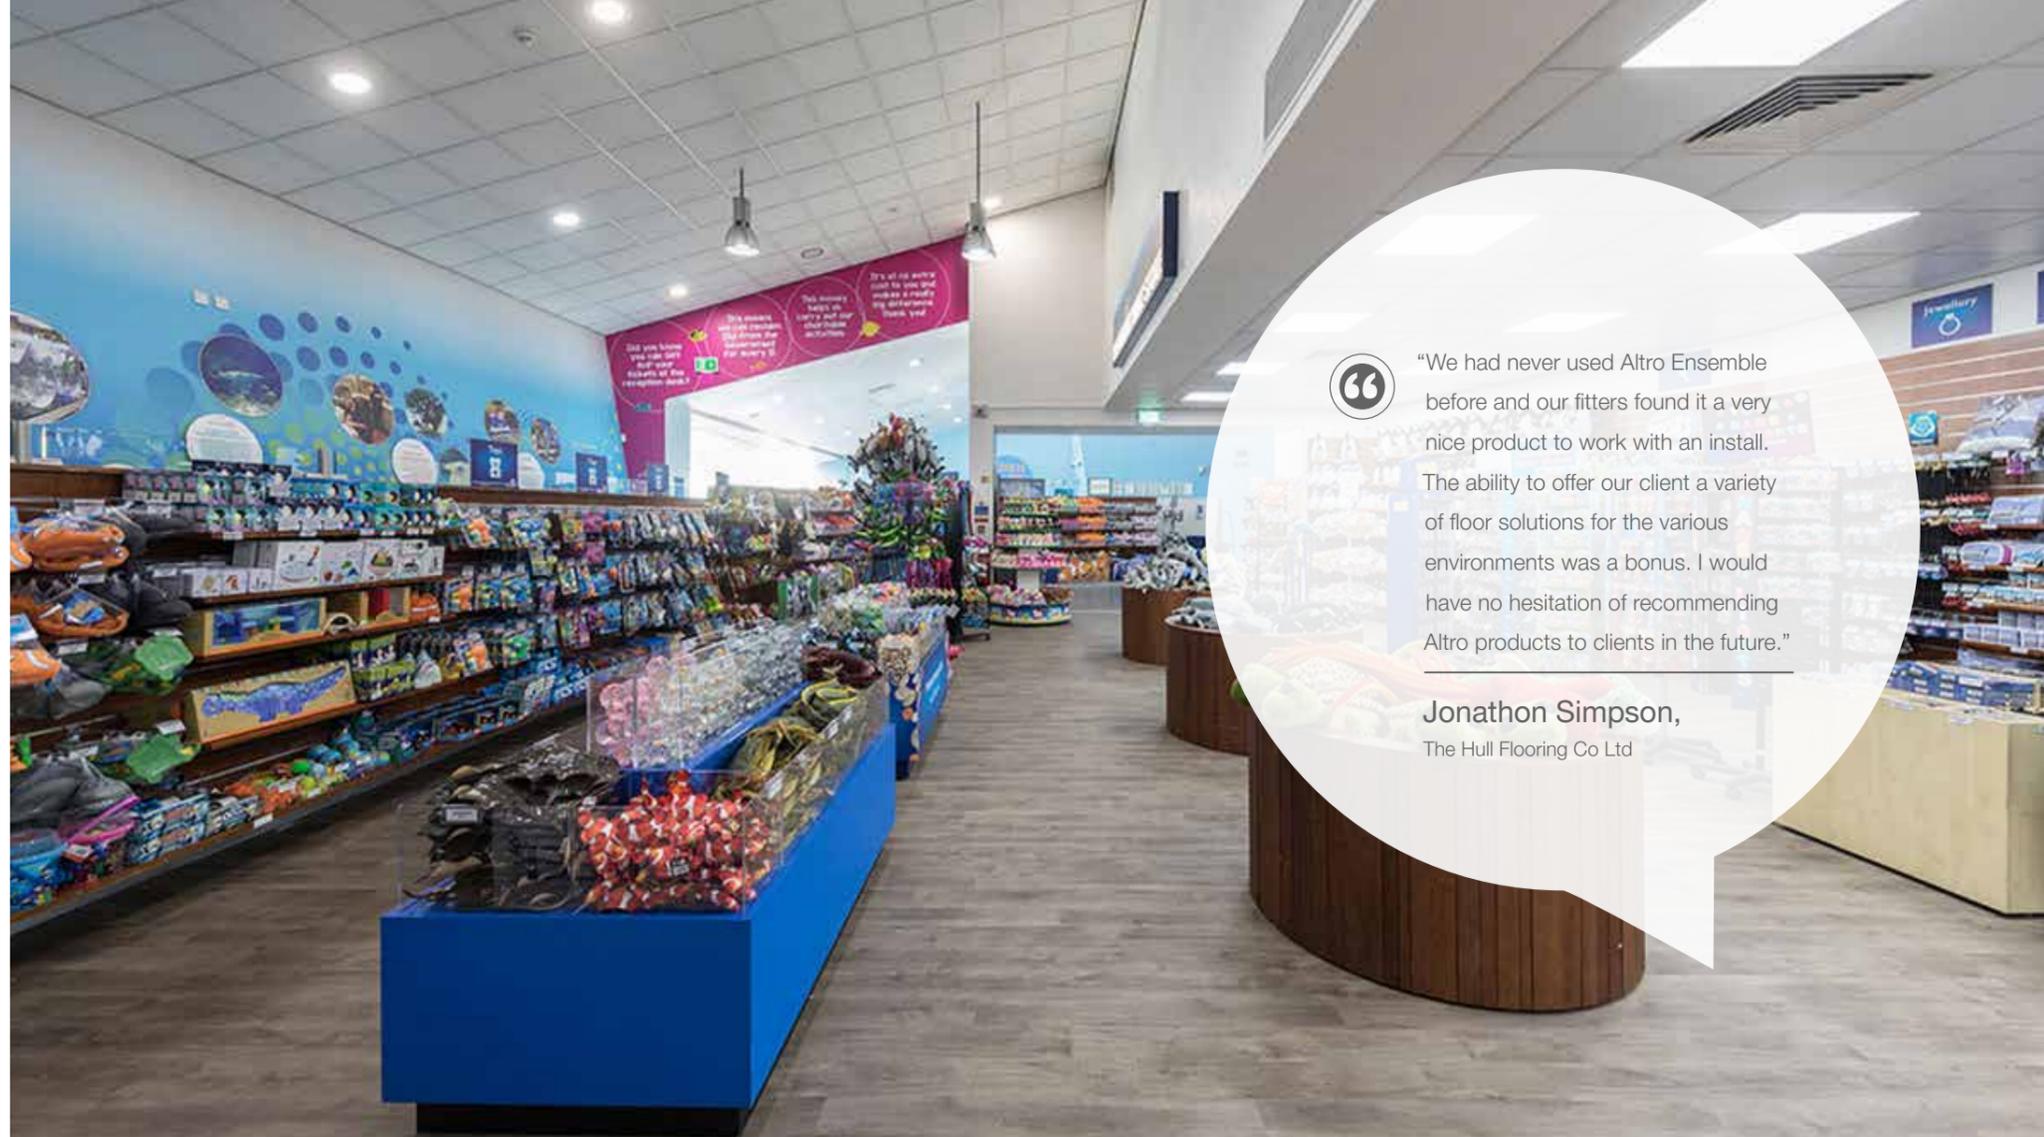

Approach

The Deep was keen to install a safety vinyl flooring for the visitor walkways and ramps. As The Deep is open from 10 am – 6 pm daily, work had to be undertaken at night. The gift shop and Two Rivers Restaurant were closed for the installation.

Solution

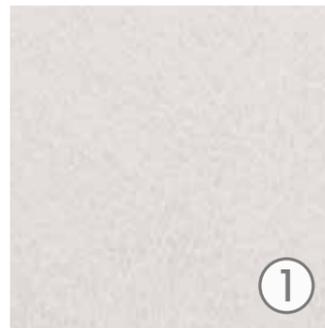

Altro Reliance was selected to provide a durable solution underfoot for the visitor walkways to keep visitors safe.

Altro Wood Safety was installed in the restaurant. Altro Ensemble, a modular flooring system, was installed in the customer Gift shop. All the products were chosen for their ease of installation, designs and guarantees.

“We had never used Altro Ensemble before and our fitters found it a very nice product to work with an install. The ability to offer our client a variety of floor solutions for the various environments was a bonus. I would have no hesitation of recommending Altro products to clients in the future.”

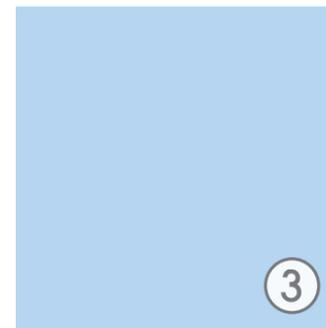

Jonathon Simpson,
The Hull Flooring Co Ltd

Looks great with:

1. Altro Whiterock™ wall designs
2. Altro Fortis Titanium™
3. Altro Whiterock Satins™

Altro Ensemble (M500.1 V) is a modular flooring system that gives you complete design freedom to create stunning floors for interior spaces. From colour blocking to geometric patterns, the possibilities are as endless as your imagination.

Altro Wood Safety attractive, general purpose 2mm wood-effect vinyl flooring is available in a range of designs with different plank sizes and shades, helping you create the right look for areas where people live and work. It is designed to cope with medium to heavy traffic in the areas specified above and has sustained slip resistance for the lifetime of the floor.

Altro Reliance can cope with high levels of foot and wheeled traffic without compromising on slip resistance and provides additional comfort underfoot.
