

Miraval Berkshires hotel chooses Altro floors and walls

Before

With the help of Altro safety flooring and wall protection, Miraval Berkshires turned what was once a dilapidated space into a state-of-the-art kitchen ready to serve its guests the finest culinary creations.

A collaboration between multiple Altro representatives and consultants ultimately led to Miraval choosing Altro Stronghold 30 as well as Altro Puraguard wall protection for its kitchen renovations.

After

Designed to minimize the risk of injuries and accidents in areas associated with wet and greasy conditions, Altro Stronghold 30 offers Altro's highest available slip resistance rating. It also contributes to reduced fatigue with its 3mm thickness, providing ample comfort underfoot for chefs and kitchen staff.

Before

After

Altro Stronghold 30 vs. quarry tile

- Can be flashed-coved, preventing liquids from infiltrating behind walls.
- Slip risk chance of one-in-a-million, even where contaminants such as grease and water are present.
- 2000 PSI; great for heavy kitchen equipment and point-loads.
- Easier to keep clean.

Altro Puraguard vs. ceramic wall tiles

- Impervious surface that is more hygienic than ceramic tile and porous grout that can grow and harbor bacteria.
- Greater impact resistance against moving carts and bumps. No surface chipping or cracking that can compromise a hygienic environment.
- Easier to keep clean.
- No regrouting necessary.
