Hospital Asil of Granollers, Spain

## Hospital Asil of Granollers choose Altro

### Altro Stronghold™ 30, Altro Whiterock White™

Private Foundation Hospital Asil of Granollers is a health and social care facility that is part of the Public Use Health Network in Spain. The Foundation is composed of the Geriatric Centre Adolfo Montaña and the General Hospital of Granollers, which serves nearly 400,000 living in the Vallès Oriental, Barcelona region. The hospital offers a wide range of services in modern facilities.

The hospital kitchen has 28 workers, serving three meals a day for hospital patients and staff. The kitchen had issues with water leakage into the subfloor. The problem needed to be resolved quickly without interrupting the key catering service.

Euroline, an engineering, design and installation company, suggested Altro safety flooring and hygienic wall cladding for the project. Altro Stronghold 30 and Altro Whiterock, when installed together, creates a water tight and impervious solution for commercial kitchens, preventing water ingress, as well as providing the safety and hygiene needed for kitchens.

“Five years ago, a vinyl flooring from a different manufacturer was installed but it did not solve our water ingress problem. Euroline has installed Altro in other projects and were confident that it was the right choice for us,” said Jofre Balagué, Chief of General Services Foundation.

“All customers require the maximum guarantee of safety and hygiene; and hospitals in particular must follow these parameters,” says Jordi Cabrera de Luque, Commercial Director of Euroline.

Euroline installed 600m<sup>2</sup> of Altro Stronghold 30 in the kitchen, hallways and common areas and 100m<sup>2</sup> Altro Whiterock White in areas with high humidity.

Tània Luis Ferrer, Supervisor of General Services Center, said: “We chose Altro flooring for its easy and quick installation and their slip-resistance. The installation was completed quickly and had minimal disruption of services. Euroline recommended the best option for us.”
