Freedman Seating, USA

Cross-country safety

Altro Transflor Chroma™

Freedman Seating is set to embark on their 2017 Transit USA Tour, where a team of sales managers will be traveling across over 40 states in a 2017 Ford Transit Wagon dressed in the latest and greatest seating, flooring and other transportation products – emphasizes being safety, comfort and maintenance. The van is travelling to major Original Equipment Manufacturers (OEMs), bus dealers, operators and agencies, along with stopping at various tradeshows.

Altro Transflor Chroma was chosen to complete their van's innovative flooring, and to show off its safety features. This highly resilient and durable vinyl floor features a quality wear

layer, incorporating silicon carbide and aluminum oxide grains for slip resistance, enhancing passenger safety. The middle scrim increases dimensional stability, and the floor is impervious to water penetration.

This tough, popular range performs at its best in demanding, heavy traffic areas. With multi-colored chips to enhance the broad colour palette available, Altro Transflor Chroma adds a touch of style to your interiors, harmonizing with your branding.
