Bathrooms and wet rooms

In healthcare, we understand how important performance is and research shows that patient outcomes, staff efficiency and satisfaction is improved when design finishes are considered and thought through.

Meeting LRV requirements while creating engaging, design led spaces can be challenging, and thoughtful, well-considered design choices can directly enhance the quality of healthcare environments.

Explore our carefully curated colour combinations for bathrooms and wet rooms developed by the creative team at Altro. If you need something tailored to your project, get in touch - we are here to support your scheme.
