Altro Atlas™ 40

## US Naval Academy chooses Altro Atlas™ 40

Founded in 1845 by Secretary of the Navy, George Bancroft, the US Naval Academy in Annapolis, MD has trained some of our countries finest Navymen over the years. The academy was looking to renovate their kitchen, The King Hall Galley, which feeds over 4,000 naval cadets and staff each day. Altro worked with the project team to get the academy one of the most durable flooring options in the market, Altro Atlas 40.

The naval academy needed a floor that was thick in order to withstand lots of heavy, rolling traffic. Along with durability, safety and hygiene were two other points of concern for their food prep area.

Altro's Atlas 40 Pewter Grey was installed in the kitchen. It's high level of slip resistance and robust properties make it an obvious choice for busy kitchens where the floor is under constant stress. With an impermeable surface and heat welded seams, Altro Atlas 40 leaves little room for bacteria and dirt to hide.

About 3,000 square yards of Altro Atlas 40 was installed by Floors, Etc. of Hunt Valley, MD. Backed by a 15 year product warranty, Altro Atlas 40 is the ideal choice to serve our nations heroes.

“A kitchen feeding over 4,000 of our nations heroes needs to be safe + hygienic. Altro Atlas 40 can create safe kitchen environments, even in wet and greasy areas where safety cannot be compromised.”
