Altro Quartz Tile™ product datasheet

Robust and durable, compressed quartz tile for high traffic areas

discover [altro.com](https://www.altro.com)

Altro Quartz Tile

Altro Quartz Tile is a homogeneous tile available in chip and marble patterns, providing endless design options for commercial, industrial or public sector applications. Static load testing that exceeds 3000 psi proves Altro Quartz Tile is ideal for heavy pedestrian traffic areas. These tiles are occupancy ready, eliminating the need for initial application of floor finish.

Generate school spirit by pairing logos and colors or improve company morale with vibrant hues that inspire vitality throughout the office.

Altro Quartz Tile also looks great paired with Altro Lavencia or Altro Walkway 20.

Typical applications

Schools, hallways, classrooms, cafeterias, lobbies, waiting rooms, retail, supermarkets, cafes, office buildings, general circulation areas, warehouse and industrial areas, forklift trafficked areas

Features + benefits

- Homogeneous construction, available in chip and striated patterns
- Static load limit of 3,000 psi
- Easier and faster to install than VCT
- Occupancy ready, no finish required
- 70% quartz content for extreme durability
- PUR coating – easy to maintain and better cleanability compared to non PUR treated products
- FloorScore Certified / Low VOCs
- This product does not contain PFAs

A better alternative to VCT

Vinyl composition tile attempts to lure you in with low installation cost, but don't take the bait. Constant maintenance over VCT's useful life can cause your total costs in less than five years to be more than Altro Quartz Tile's cost after ten years!

Better together

Smooth flooring from Altro gives you what you want - an economical and attractive look that's easy to install and maintain. But, in commercial areas with frequent spills and hygiene and durability concerns, it's best to let our robust collection of safety flooring, slip-resistant flooring and wall cladding join the team!

Install smooth flooring in the dining room and public areas, and bring safety flooring and wall protection into the kitchen, bar and restrooms. You will rest easy knowing your patrons will have an exquisite experience while the most dangerous areas in your facility are well equipped to handle the tolls of the day.

We strongly recommend carrying out a risk assessment in any area in which the installation of smooth flooring is considered, focusing on the potential risk posed by contaminants.

UPPER MORELAND HIGH SCHOOL

Upper Moreland School chose Altro Quartz Tile.

Specifications			
Type + class		ASTM F1700	Class I, Type A, smooth tile flooring
Thickness		2.0mm .08” wear layer, homogeneous construction	
Tile dimensions	24” x 24” 61cm x 61cm		
Tiles per carton	15 tiles per carton		
Area per carton	60ft ² 5.54m ²		
Weight		48 lbs/carton 21.8 kg/carton	
Warranty		15 years	
Life expectancy		20 years	
Cleaning technology	Factory finished PUR coating		
Static coefficient of friction		ASTM D2047	Greater than .6
Dynamic coefficient of friction		ANSI/NFSI B101.3	.27 wet DCOF
Static load limit		ASTM F970	3000 psi
Fire and smoke performance		CAN/ULC - S102.2 ASTM E648 ASTM E662	Tested Class I < 450
VOC emissions		CA 01350 FloorScore	Pass Certified
Bio-based content		Contains up to 6% rapidly renewable bio-based content.	
Ortho-phthalate content		Ortho-phthalate-free	
Composition	Compressed quartz and vinyl. Decorative vinyl chips and striations added to enhance appearance.		
Content	Contains 70% quartz and 15% vinyl.		
Staining	Certain chemicals may cause staining of vinyl flooring. Traffic stains may be caused by asphalt and rubber products, like rubber mats. Please conduct stain test before installation.
