

AltroFix™ 31

Fast-acting two-part polyurethane adhesive

Features and benefits

- Installs in areas up to 90% RH
- Extremely fast curing time—heat welding can be performed the same day
- Outstanding adhesion in areas with heavy traffic and rolling loads
- Excellent for water spray areas, such as produce departments in grocery stores
- Freeze-thaw stability: 5 cycles at 0° F
- Solvent-free
- Low VOCs less than 12 grams/liter
- Complies with South Coast Air Quality Management District #1168

Applications

AltroFix 31 two-part polyurethane adhesive is recommended for the installation of Altro flooring on clean and dry subfloors, above, on or below grade.

AltroFix 31 is extremely fast acting and is perfect for use in small wet areas — like a bathroom — and allows for heat welding to be performed the same day (approximately 6 hours later).

Specifications

AltroFix 31 is sold in one gallon units (Part A mixes with Part B). Approximate coverage is 150-300 square feet per gallon.

For installation instructions, consult the Altro sheet flooring installation guide or adhesive label.
