**Composition**
- Altro Whiterock is constructed from the highest quality virgin-grade PVC, with a tight molecular structure that prevents the ingress of moisture and odor. It incorporates stabilizers for excellent UV stability and won’t discolor over time.

**Installation**
- Altro wall panels must be installed by a professional installer that has attended the Altro Whiterock Installation Clinic. Installation procedures must follow the instructions detailed in the Altro Whiterock Installation Guide. Failure to install using the complete Altro Whiterock System could void the limited product warranty.

**Maintenance**
- Requires little maintenance. Regular cleaning using a soft cloth and a suitably diluted mild detergent is all that is normally needed. Stubborn marks can be removed with a non-abrasive domestic type cream bath cleaner. Do not use abrasive pads, wire or wool. Do not clean above 140°F (60°C). If in doubt about cleaning procedures contact Altro.
