Stammers Shopping Centre, Australia

Altro adhesive-free floors chosen
for reliability and performance

“The attraction to Altro flooring was no costly take-up of existing floors, eliminating dust and especially downtime for the shop keepers. Installed on a Saturday evening, the project was completed before opening on Sunday morning, without closure of the centre”

Carl,
Hyland Management & Co

Stammers Shopping Centre, Australia

Altro adhesive-free floors chosen for reliability and performance

Issue

Having a large number of locals visiting the centre on a daily basis, Stammers Shopping Centre in Palmyra was after a floor that wouldn't cause major disruption to the trading of the stores within the complex. Providing a safe and enjoyable space for shoppers are important factors for the centre, and so the refurbishment of the floor had to be suitable. Above all, the centre's main concern and priority was selecting a product that could be installed quickly, with minimal interruption to the centre and stores.

Approach

The centre required a floor that was not only reliable but also visually appealing for the community. Selecting a product that would perform well against heavy foot traffic was crucial. Altro Cantata and Altro Xpresslay adhesive-free floors were chosen for this project, based on their reliability and performance.

Solution

Altro Cantata in Venice and Altro Xpresslay in Coal were chosen for Stammers Shopping Centre. Ron Jones at Danleigh Carpets was confident that the adhesive-free ranges would deliver a great job for everyone involved, and that they'd be delighted with the end result.

"The installation of the Altro Cantata and Altro Xpresslay adhesive-free products were very cost-effective, with no pulling up or grinding, together with a speedy recovery and a great looking finish."

Ron Jones, Danleigh Carpets
