Capture the reclaimed wood look with Altro Ensemble

“The Altro Ensemble looks excellent and perfectly fit the style of our office fit-out. A number of visitors have been surprised it isn't reclaimed wood. I would recommend it for its versatility, easy installation and ease of cleaning.”

Capture the reclaimed wood look with Altro Ensemble

Issue

Tapper Interiors is a family-owned business which was set up in 1984, growing into an award-winning one-stop shop for interiors projects.

The company was relocating to a new office converted from an industrial building. They wanted a floor design to incorporate a reclaimed wood style.

Approach

Ideal Flooring was approached to recommend and install new flooring at the office. "Mike Tapper from Tapper Interiors had seen a ceramic driftwood-effect tile whilst in a restaurant on holiday. I sent across the Ensemble samples as I knew it had similar designs and a mix and match would be possible." Sam Moore, Ideal Flooring.

Altro Ensemble was selected to create a stunning, realistic reclaimed wood design throughout the office. Altro Ensemble was easy to install and quickly available to complete the project.

Solution

Altro Ensemble modular flooring system is the next generation of luxury vinyl tiles that combines design possibilities for creating stunning effects, superior function and durability, and ease of installation. Altro Ensemble is available in four modular sizes that can be mixed and matched to create unique designs from colour blocking to geometric patterns.

"We found Altro Ensemble very flexible, and unlike other LVT's, very easy to cut. We've since used it on several projects and customers and fitters have been very happy."

Sam Moore,
Ideal Flooring
