

Adriano Zumbo, Australia

Altro XpressLay top choice for celebrity chef

Altro XpressLay™

Celebrity Pastry Chef Adriano Zumbo is known for his creative and colourful desserts that have your mouth watering.

With new retail stores popping up all over Australia they were in the market for an innovative flooring solution. Kitchen designers recommended award-winning Altro XpressLay for its adhesive free and sustainable qualities. Being a food service they also needed to provide a high level of slip resistance and ease of cleaning.

Altro XpressLay has all of those qualities. Altro XpressLay features a studded surface on the underside of the floor. Its unique formulation allows the floor to lie flat and perform like a traditionally adhered floor without the need for an adhesive.

Allowing the subfloor to breathe, installations can be quicker and easier as no damp-proof membrane (DPM) is required. This means that downtime can be reduced so you can continue to eat all of those delicious sweets whenever your cravings kick in.

Adhesive-free, it can be installed over existing flooring or even on fresh concrete at up to 97% relative humidity. The floor can be removed easily, reused and is 100% recyclable at the end of its life.

“We required a product which could be installed without adhesives and yet required a commercial product that would obtain a slip rating for a commercial food service area. The product has been installed and we are now considering using it within other spaces within our property.” Myles Cran-Crombie, Project Manager - Star Casino.
