---

We are pleased to announce that we are now providing a CPD presentation. Slips & Trips - Approved by The Australian Institute of Architects.

---

---

## Learning Outcomes

---

Our presentation is aimed to educate and aid specifiers and designers on issues faced when considering slips & trips when designing buildings. The focus in this presentation is slips and falls and the preventive measures that should be considered in the design stages. We detail the testing methods and guidelines set out by Standards Australia to meet duty of care requirements, providing you the knowledge to get your project specifications right the first time.

### AACA Competency Standards:

- Practice management & professional conduct (PC03 & PC12)
- Project initiation and conceptual design (PC20)
- Detailed design and construction documentation (PC39)

---

### Some of the topics covered include:

- OH&S Statistics
- The compensation culture
- Specific requirements for flooring
- Your role and duty of care
- Understand slip ratings
- Prevention & solutions

### After the course, you will be able to:

- Identify OH&S factors that impact on client project requirements and objectives
- Incorporate risk assessments in your design assessments and understand duty of care requirements
- Integrate appropriate material selection for commercial buildings, based on Australia Slip Ratings.

# Presenter Biographies

**Mick Barbara**

Worked with Altro for more than 20 years, industry expert on current flooring slip standards, involved in discussing the key requirements with architects, designers and end users in all major commercial sectors.

Connect with Mick 

**Vicki Ryan**

Worked with Altro for more than 10 years, industry expert on current flooring slip standards, involved in discussing the key requirements with architects, designers and end users in all major commercial sectors.

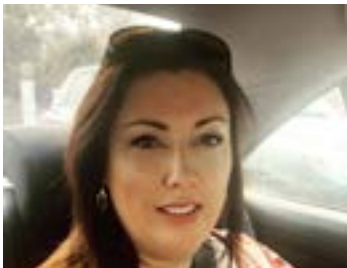

Connect with Vicki 

**Jacki MacCullagh**

Worked in the flooring/design industry for more than 10 years, industry expert on current flooring slip standards, involved in discussing the key requirements with architects, designers and end users in all major commercial sectors.

Connect with Jacki 

**James Martin**

Worked in the flooring industry for more than 15 years, industry expert on current flooring slip standards, involved in both installing, estimating and specifying. Has discussed the key requirements with architects, designers and end users in all major commercial sectors.

Connect with James 

**Shell Leeder**

New to the flooring industry, however has worked in the A&D industry for more than 15 years. Enjoys working with the specifier and end user to ensure the product is selected for durable use and outstanding design.
