2. Altro Fortis Titanium™
3. Altro Fortis™ Doorsets

Cromwell Veterinary Clinic

Altro durability and aesthetics for vet clinic

Issue

The Cromwell Veterinary Group is one of an elite group of practices around the world to celebrate over 100 years of veterinary care. The Huntingdon practice had built a new extension and as veterinary operating theatres are demanding environments it required a specialist flooring solution to deal with possible contaminants and prevent against slips and falls.

Approach

The practice needed floors, walls and doors that would support a hygienic environment but also be durable and look good. Altro Whiterock Premier Installers Cladpro worked with the client through the selection of finishes, and decided the protection element offered by the Altro Fortis range offered significant benefits. Altro Stronghold 30 was selected for the floors in the clinical operating rooms.

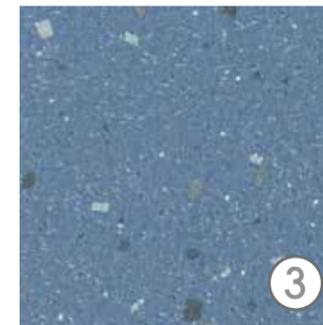

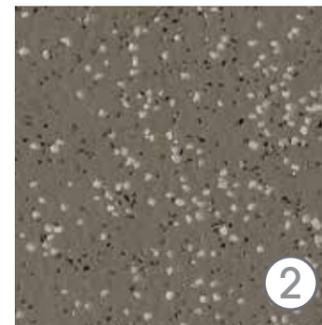

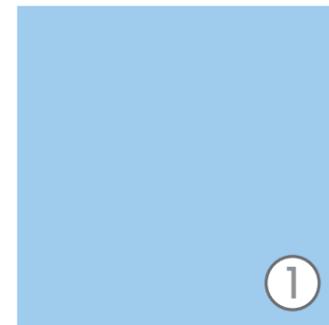

Solution

Altro Fortis Titanium wall protection sheets were fitted along with Altro Fortis doorsets. The solution provides a durable and impact-resistant solution for busy areas. Altro Stronghold 30 provided a safe and hygienic solution for operating theatres.

“Altro Fortis Titanium in ‘Battleship Grey’ and ‘Pearl’ creates an impactful as well as robust finish, offering style with practicality.”

Hannah Murphy,
Cladpro Ltd

Looks great with:

1. Altro Whiterock Satins™
2. Altro Classic™ 25
3. Altro Reliance™ 25

Altro Fortis Titanium has been specifically designed to protect plaster board walls and doors. Altro Fortis Titanium is dense, impervious and resistant to bumps. It features a lightly textured surface, which camouflages scuffs, keeping the wall area looking better for longer.

Doorsets faced with Altro Fortis Titanium are hard-wearing, impact and scuff resistant and have a wipe clean finish for easy maintenance.

Altro Stronghold 30 achieves Altro's highest rating for slip-resistance. As well as helping to keep staff safe from slips, it also helps reduce their fatigue, thanks to its 3mm thickness which provides noise reduction and comfort underfoot.
