

The Jesuits School, Spain

Comfort and sound reduction benefits for school

"It has been an excellent choice for comfort underfoot, the reduction of noise and, above all, for its easy installation. We saw the installation was easier, less complicated and faster."

Gerard Bonveho,
School manager

The Jesuits School, Spain

Comfort and sound reduction benefits for school

Issue

The Jesuits School was founded in 1968 in the Bellvitge neighborhood to welcome immigrants who came to work in the factories of the industrial belt. With 1,700 students, the school has built facilities to meet the challenges of the next generation, with a building of 12,000 m² and 7,000 m² of courtyards.

The School needed a floor for a school environment that would meet regulation and provide sound reduction and easy maintenance.

Approach

Gerard Bonvehí Ventura, manager of the school explains: "The fundamental objectives of this refurbishment is the innovation of classrooms putting the student at the centre of learning."

Solution

Altro Orchestra was chosen to create an environment to promote concentration with the benefits of comfort. It perfectly combines all these qualities ensuring 15dB sound reduction and maximum comfort for students and teachers.

Martina Pozzi, Architect of Exe. ARCHITECTURE for this project and professional who understands the needs of the client, recommended the Altro Orchestra for its wide range of colours, durability and acoustic comfort.

"Altro Orchestra is highly recommended for classrooms and hallways and it is also very quick to install."

Gustavo Ortiz,
Commercial technician of TerraOrtiz,
Installer and contractor.

Looks great with:

1. Altro Whiterock Satins™
2. Altro Fortis Titanium™
3. Altro Operetta™

For areas where comfort and sound reduction are important, 2.85mm Altro Orchestra has been engineered to create the ideal environment to learn and live. With a palette of 40 colours and designs varying from calming neutrals reflecting tones of nature, to vibrant shades, Altro Orchestra allows you to create the right atmosphere every time.

Low residual indentation facilitates the flexible use of equipment and furniture, including hospital beds. At the same time, the integrated impact sound insulation system cuts impact sound by up to 15dB.

It offers comfort underfoot making life easier on the feet of students and patients but particularly hard-working staff who spend countless hours on the move.

It coordinates with Altro Operetta and Altro Serenade for a complete look throughout.
