

Altro Global Sustainability Policy

Innovation with social, environmental and economic responsibility

Altro is a family business doing its best to protect and sustain the environment for future generations. Altro demonstrates its commitment to sustainability by remaining a profitable company that recognises its social responsibility whilst actively reducing the impact its activities have upon the environment.

Social Responsibility – we aim to operate in a socially responsible manner by:

- Having a positive and proactive influence upon the communities in which we operate
- Offering value for money, accessible products, solutions and services and fair and accurate claims in promotional materials.
- Manufacturing and selling products which contribute toward public safety.
- Ensuring ethical sourcing of materials and fair treatment of suppliers and customers.
- Developing long term relationships with our suppliers ensuring they have the same standards and ethical practices as our own
- Conducting our business with integrity, understanding human values and respecting cultural diversities.
- Creating an enabling environment for learning, innovation and sharing of knowledge.
- Respecting and complying with local, national and international law.
- Providing safe working conditions and family friendly policies.

Environmental Responsibility – we aim to minimise the adverse effects our activities have upon the environment by:

- Viewing the statutory controls exactly as they are – the bare minimum.
- Provision of socially useful, long life, durable products which are easy to maintain and can be safely disposed of at end of life.
- Actively reducing the environmental impact at every stage of the manufacturing process.
- Wherever possible, the minimisation of waste to landfill through effective recycling and re use programmes.
- Reduction of greenhouse gas emissions to air through the management of energy consumption.
- Responsible selection of suppliers and raw materials.
- Continued registration to the environmental management system ISO 14001:2004.

Economic Responsibility – we aim to fund our social and environmental activities by:

- Stable economic growth that generates profits provides jobs and contributes to the local economies in which we operate.
