## Features and benefits for OEM manufacturers

Altro has more to offer in addition to our premium flooring

**Broad range** - Designed for an entire fleet, Altro transport products are offered in three thicknesses: 1.8mm, 2.2mm or 2.7mm.

**Engineered systems** - Moldings, step nosings, adhesives, tools, color matched sealants and weldrod available.

**Custom kit cutting program** - Unlimited array of custom sizes, shapes and pre-assembled materials available to meet customers' specifications.

**Quick ship program** - U.S. and Canada inventory in most thicknesses, most popular colors available for immediate delivery. Product is available in multiple warehouses strategically placed across the Americas.

**Self-adhesive backing** - Save time on installation by no longer needing to mix and spread traditional adhesives. The pre-applied, pressure sensitive adhesive also eliminates exposure to chemicals and reduces VOCs.

**Same day shipments** - If you're in a bind and need a fast turn around, Altro can ship orders same day.

**Step tread kits** - Pre-made step pieces made to fit to your specifications. The stairs are the first thing a passenger sees when entering your vehicle — made a good first impression.

**Specialty tools and repair** - Altro has all the right tools to get the job done right when it comes to floor installation.

**On-site training** - Altro's technical services department can make on-site visits to do hands-on training for your staff.

**Installation guide** - Altro has an extensive installation guide to offer expert guidance every step of the way.

**Long warranty** - Have peace of mind your investment is protected with warranties for up to 15 years.

**Dealer support** - Support doesn't stop once the floor is installed. Altro offers support before, during, and beyond for any technical, maintenance or other questions. We're the safety floor experts, we're here to help.
